

**Department of
Higher Education**

Mike DeWine, Governor
Randy Gardner, Chancellor

Memorandum

To: Chief Academic Officers and Provosts

From: Dr. Paula Compton, Associate Vice Chancellor, Ohio Articulation and Transfer Network

Date: July 30, 2020

Subject: Update to Introduction to Medical Laboratory Science TAG

Dear Provosts and Chief Academic Officers,

Please see the attached memo from me regarding an update to one course in the Clinical/Medical Laboratory Science TAG:

- OHL008- Introduction to Medical Laboratory Science

Because the spirit of the previous learning outcome continues to be implemented but better defined with an updated organization, the TAG panel members recommend that institutions with courses already approved for OHL008 will not be required to resubmit for additional validation.

Please share the attached documents with appropriate faculty and departments on your campuses.

If you have any questions, please contact Jessi Spencer at (614) 728-4706 or jspencer@highered.ohio.gov or Michelle Blaney at (614) 644-9601 or mblaney@highered.ohio.gov.

Thank you very much for your continued support.

Best wishes
